

# Ahmet Şeker

## Experience

### Freelance Web Developer

JULY 2022 - DECEMBER 2022

- Customizing pre-made themes and making them suitable for specific requests, then offering them for sale.
- Developing and selling custom solutions by editing PHP scripts.
- Designing modern and user-friendly interfaces using HTML, CSS, and JavaScript.

### Frontend Developer - Hajans

JANUARY 2023 - MAY 2023

- I developed a B2B e-commerce platform for the company using Tailwind CSS and Alpine.js.
- The platform aimed to increase customer satisfaction with a user-friendly interface design and interactive features.
- Working in the frontend domain, I provided a customizable and fast user experience tailored to customer needs.
- I have experience in using Tailwind CSS to create page designs, enhance user interfaces, and increase user interaction.

### Frontend Developer (React) - Orjinfinity

MAY 2023 - PRESENT

- I had the opportunity to work at Orjinfinity and during this process, I gained the chance to enhance my knowledge and skills on React.
- I was involved in the frontend development of a POS application for restaurant cafes.
- I actively took on a role in user interface design and development.
